THE BIR/DMCI “HANDS-ON” TRAINING SERIES: PAEDIATRIC IMAGING

Venue: Etc. venues Marble Arch, London

CPD: 6 CREDITS (applied for)

This “Hands-On” course will focus on the imaging of children. The emphasis through the day will be on delegates reviewing cases for themselves before interactive discussion with the expert tutors.

Educational aims:

- To become familiar with the principal imaging findings of neonatal disorders
- To increase confidence in the diagnosis of common paediatric abdominal masses
- To review the imaging and management of paediatric abdominal trauma.
- To develop an approach to the limping child

Programme

08:30	Registration
09:00	Welcome and introduction
09:20	Fundamentals of neonatal imaging Dr Maria Sellars/Dr Annamaria Deganello
09:40	“Hands-On” case review and discussion
11:00	Refreshments
11:20	An approach to abdominal masses in children Dr Maria Sellars/Dr Annamaria Deganello
11:40	“Hands-On” case review and discussion
13:00	Lunch
14:00	“Hands-On” case review and discussion
15:30	Refreshments
15:50	“Hands-On” case review and discussion
17:30	Close

Dr Maria Sellars

Consultant Paediatric Radiologist, King's College Hospital NHS Foundation Trust

Dr Maria Sellars is a consultant paediatric radiologist at King's College Hospital NHS Foundation Trust since 2002. She qualified in 1991 and began in radiology at Grootte Schuur Hospital in Cape Town, South Africa. She joined the training programme in the department of radiology at King's College Hospital and was awarded the FRCR in 2000. She has a special interest in the imaging of paediatric hepatobiliary diseases with particular expertise in the interpretation of radiological tests in complex hepatobiliary, pancreatic / paediatric surgical disorders, paediatric liver transplantation. She has also pioneered the use of contrast-enhanced ultrasound in the imaging of children with liver disease and following trauma. She is the author and co-author of a number of peer-reviewed publications and has lectured at national and international meetings.

Dr Annamaria Deganello

Consultant Paediatric Radiologist, King's College Hospital NHS Foundation Trust

Dr Annamaria Deganello is a consultant paediatric radiologist at King's College Hospital NHS Foundation Trust since 2013. She qualified in 2004 from the Faculty of Medicine of the University of Padua (Italy), and trained in radiology at the Policlinico Hospital of Padua and at King's College Hospital. She was awarded the Specialisation Diploma in Radiology in Italy in 2009. She has a special interest in the imaging of paediatric hepatobiliary diseases and liver transplant, complex paediatric surgical cases and paediatric trauma; she is also part of the team pioneering the use of contrast-enhanced ultrasound in the imaging of children with liver disease and following trauma. She is the author and co-author of a number of peer-reviewed publications and book chapters and has been an invited lecturer for her expertise at various national and international congresses.

Event information

The number of places will be limited so that delegates can experience a more personalised, interactive method of teaching. Early booking is therefore strongly advised.

The course will be run on iMacs to provide all delegates with the best possible interactive experience.

Registration Fees

Non-member	£400
BIR Plan 1 member	£300
BIR Plan 2 member	£275
BIR Trainee member	£250
BIR Retired/Student member	£200

Future "Hands-on" training courses

Trauma imaging

20 October 2016, London

Delegate feedback from past "Hands-On" courses:

Excellent course. Large volume of interesting cases all with good learning points.

Tremendous learning experience.

Excellent course, excellent Speakers and very informative and interactive sessions, I am not a radiologist but I believe that all surgeons in the HPB/Liver field will find this course very useful and I would recommend this course to them. Excellent way of teaching and discussion of cases.

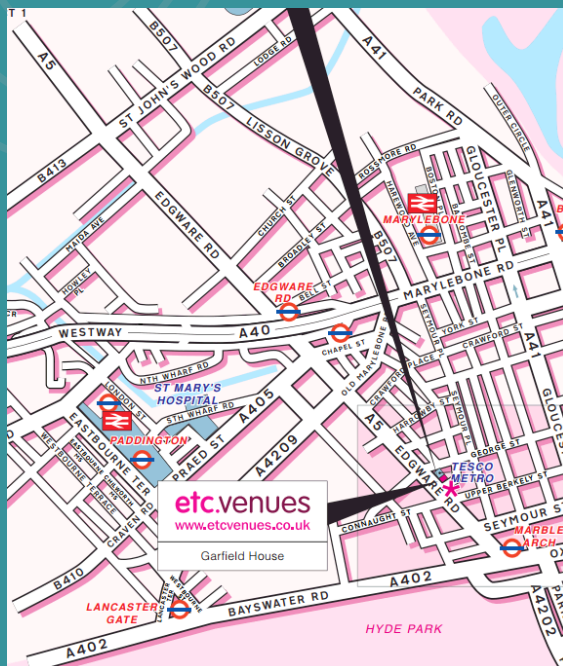

Fantastic course, the first of its kind- as everyone knows a standard haemangioma, but it's the variations that are important. Hands on training fantastic - only thing is that you may wish to spread over 2 days.

Excellent event, I learned a lot and would thoroughly recommend it to others.

THE BIR/DMCI "HANDS-ON" TRAINING SERIES: PAEDIATRIC IMAGING

Venue: Etc. venues Marble Arch, London

Garfield House, 86 Edgware Road,
London, W2 2EA

BY UNDERGROUND

Take the Central line to Marble Arch Station, when you exit the station, turn right on to Oxford Street and then right again on to Edgware Road walking past the Odeon Cinema. etc.venues Marble Arch is in Garfield House, on the right hand side next to the Tesco.
