ADVANCES IN PROSTATE CANCER DIAGNOSIS AND TREATMENT

Venue: Mary Ward House, London

This event, supporting the Movember Foundation, will highlight new imaging and therapeutic aspects concerning prostate cancer. Learn about best-practice in MRI, IMRT, brachytherapy and nuclear medicine for prostate cancer. Hear from the experts on how to image metastatic prostate cancer. Find out how to get the best from your multidisciplinary team to deliver the best service to your patients.

We will also hear from inspirational Simon Lord, who reflects on his patient journey after diagnosis of prostate cancer.

This event is for all radiologists, oncologists, urologists, physicists, specialty trainees and radiographers but will also be of interest to junior and senior clinicians.

08:45	Registration and refreshments
09:15	Welcome and introduction
Session 1 - Diagnosis	
09:30	Multiparametric prostate MRI: Seeing is believing Dr Alex Kirkham, Consultant Radiologist, University College Hospital
