BIR ANNUAL CONGRESS 2017

2-3 November

Prospero House, London

The BIR Annual Congress returns in 2017 for its fourth successive year. Building on the success of the previous three congresses, we have created an even better programme for 2017, one you certainly will not want to miss.

Divided into two parallel sessions over 2 days, our Annual Congress provides an open and relaxed environment for delegates and exhibitors offering an excellent opportunity to network during the day and at our evening events.

The event will be of interest to anyone within radiology, radiation oncology and the underlying sciences, including radiologists, physicists, radiographers, oncologists, physicians and radiation protection advisers, and supervisors.
