EMERGENCY INTERVENTIONAL RADIOLOGY
Venue: The Royal Society of Medicine, London
CPD: 6 CREDITS (applied for)

A joint meeting between the Radiology Section of the Royal Society of Medicine and the British Institute of Radiology.

Interventional radiology has become a vital part of the emergency care pathway of all modern hospitals, putting radiology at the forefront of many emergency services.

The objectives of the day are:
- To learn about the importance of diagnostic imaging in the assessment of patients who require urgent radiological interventions.
- To understand the place of interventional techniques in the multidisciplinary team in managing these high risk patients and the currently available technologies and techniques used to treat these patients.
