RADIOLOGY IN PAEDIATRIC ONCOLOGY - AN UPDATE

Venue: Wellcome Collection, London

CPD: 5 CREDITS

This event will provide an update on the current major challenges faced by clinicians dealing with children who present with some of the commoner tumours of childhood, both from an oncology perspective but also from a radiological viewpoint. The speakers comprise some of the leading paediatric oncologists and radiologists from around the UK. The lecture topics include neuroblastoma, Wilms' tumours, rhabdomyosarcoma, osteosarcoma, and lymphomas plus sessions on functional imaging and interventional radiology in paediatric oncology. The day will finish with some interactive case sessions.

Educational aims:

- To be aware of optimal imaging techniques in children with cancer
- To understand new advances in paediatric oncology

08:45	Registration and refreshments	11:30	PET/CT in paediatric oncology Dr Andy Scarsbrook, Consultant Radiologist and Nuclear Medicine Physician, Leeds Teaching Hospitals NHS Trust; Honorary Clinical Associate Professor, University of Leeds
09:15	Welcome and introduction Dr Kieran McHugh, Consultant Paediatric Radiologist, Great Ormond Street Hospital for Children	12:00	Road-mapping for paediatric surgeons Dr Subhasis Chakraborty, Consultant Paediatric Radiologist, Oxford University Hospitals NHS Trust
09:30	Wilms' tumour - current dilemmas and challenges Dr Jesper Brok, Oncology Research Fellow, Great Ormond Street Hospital for Children	12:30	Lunch
10:00	Rhabdomyosarcoma - current dilemmas and challenges Dr Julia Chisholm, Consultant Paediatric Oncologist, Royal Marsden Hospital	13:30	Neuroblastoma imaging Dr Kieran McHugh, Consultant Paediatric Radiologist, Great Ormond Street Hospital for Children
10:30	Refreshments	14:00	Osteosarcoma update Dr Ann-Marie Jeanes, Consultant Radiologist, Leeds Teaching Hospitals NHS Trust
11:00	Interventional radiology in paediatric oncology Dr Derek Roebuck, Consultant Radiologist, Great Ormond Street Hospital for Children		

This course provides 5 CPD credits in accordance with the CPD Scheme of the Royal College of Radiologists
