FORENSIC RADIOLOGY

ORGANISED BY THE BIR WELSH BRANCH

Venue: Princess of Wales Hospital, Bridgend

CPD: 2 CREDITS

Join us this Autumn at the BIR Welsh Branch evening event for an insight into forensic radiology.

The evening will inform on the scope of practice, the indications and uses of post-mortem radiology including when it is considered an advantage over traditional post-mortem examination, for example in children and religious groups.

Normal CT appearances in deceased patients will be explained, as well as those appearances that indicate genuine pathology and potentially cause of death.

Educational aims:

- To understand the evolving role of radiology in post-mortem examinations
- To gain knowledge of normal imaging findings after death
- To identify genuine pathology, i.e. post-mortem and antemortem findings in post-mortem radiology

15:00	Presentations from trainee radiologists and radiographers from selected abstracts
17:30	Registration
18:00	Networking with buffet
18:45	Winning trainee presentation
19:00	Interpreting and reporting post-mortem examinations Professor Guy Rutty, Chief Forensic Pathologist, East Midlands Forensic Pathology Unit
20:00	Panel discussion – Practicalities of post-mortem imaging in an NHS faculty Dr Richard Jones, Dr Sara Harrison, Dr Rwth Ellis Owen, Ms Sian Hewson and Mr Peter Smith
20:40	Questions and discussion
21:00	Close of event

Meet the committee
