# BIR THERANOSTICS SERIES: PROSTATE CANCER

Venue: The Royal Society of Medicine, London

CPD: 7 CREDITS

Attend this course to discover an integrated approach of imaging in the diagnosis and treatment of prostate cancer. Our renowned international multidisciplinary faculty of expert oncologists, surgeons, radiologists and nuclear medicine physicians will provide a comprehensive overview of imaging technology and therapies. Attendees will develop their skills in the management of prostate cancer with talks covering radiological imaging, PET/CT, radionuclide therapy, early stage diagnosis and hormone sensitive advanced prognosis. There will also be opportunities for case-based discussions with our expert panel.

This meeting will be of interest to all nuclear medicine physicians, radiologists, oncologists, onco-surgeons, trainees, clinical physicists, technologists and health-care managers.
