The BIR Gynaecology imaging update: Part 2

Venue: TBC

CPD: 5 CREDITS

This event is divided into two separate study days and will bring delegates right up to date with imaging techniques employed in gynaecology. Both benign and oncological topics will be covered providing a comprehensive 'A to Z' of the major subjects encountered in everyday practice and will bring together a high calibre of speakers at the forefront of gynaecology imaging. This will be supplemented by talks from oncologists and surgeons providing cutting edge modern treatments.

Who should attend: Both District general and teaching hospital radiologists with an interest in gynaecology. Radiology trainees and radiographers regularly performing gynaecology MRI. Gynaecologists will also find this comprehensive imaging review helpful.

Educational aims:

- To be able to accurately stage the major gynaecology cancers.
- To understand the role of functional imaging in prognostication and assessment of disease response.
- To be able to characterise with confidence adnexal masses according to the latest ESUR guidelines.
- To illustrate the role of MRI in benign disease including infection, endometriosis, placental and uterine disorders.

09:00	Registration and refreshments	11:00	MRI of Cervix Cancer – Detection and Staging Dr Sue Freeman, Consultant Radiologist, Addenbrooke's Hospital NHS Foundation Trust
09:20	Welcome and introduction	11:30	Functional MRI in Cervix Cancer – response assessment, residual and recurrence disease Dr Helen Addley, Consultant Radiologist, Addenbrooke's Hospital NHS Foundation Trust
09:30	Endometriosis and chronic pelvic pain Dr Priya Narayanan, Consultant Radiologist, University College London Hospital	12:00	Lunch
10:00	Ultraradical cytoreductive procedures for primary & relapsed ovarian cancer Prof Christina Fotopoulou, Consultant Gynaecologic Surgeon, Imperial College Healthcare NHS Trust	13:00	Advanced MRI techniques for adnexal mass Dr. Isabelle Thomassin-Naggara, Consultant Radiologist, Tenon Hospital AP-HP (France)
10:30	Refreshments		

This course provides 5 CPD credits in accordance with the CPD Scheme of the Royal College of Radiologists

13
SEPTEMBER
2019

- 13:30** **ADNEx MR scoring system**
Dr. Isabelle Thomassin-
Naggara, Consultant
Radiologist, Tenon Hospital
AP-HP (France)
- 14:00** **Refreshments**
- 14:30** **Multiparametric MRI in
ovarian cancer – detection
of peritoneal disease and
response assessment**
Professor Evis Sala, Consultant
Radiologist, University of
Cambridge
- 15:00** **Role of imaging in fertility-
sparing treatment of
gynaecologic malignancies**
Professor Evis Sala, Consultant
Radiologist, University of
Cambridge
- 15:30** **MR imaging of Vulval Cancer**
Dr Sidath Liyanage, Consultant
Radiologist, Southend
University Hospital NHS
Foundation Trust
- 16:00** **Imaging features of
uncommon gynecologic
cancers**
Dr Aslam Sohaib, Consultant
Radiologist, Royal Marsden
Hospital NHS Foundation Trust
- 16:30** **IOTA Update – rules,
descriptors and risk models**
Susanne Johnson,
Gynaecologist, University
Hospital Southampton
- 15:00** **Close of event**

Programme Organiser

Dr Sidath Liyanage, Consultant Radiologist,
Southend University Hospital NHS
Foundation Trust

Registration Fees

Non member	£295
BIR Member Plan 1	£185
BIR Member Plan 2	£125
BIR Trainee member	£85
BIR Retired/Student member	£65
