BREAST IMAGING STUDY DAY

Venue: etc.venues Marble Arch, London

CPD: 6 CREDITS

The BIR realises the pressures of an increasing workload for breast radiologists. With that in mind, we would like to invite you to our 'Breast imaging study day' to bring together speakers who are experts in the latest clinically relevant advancements in breast imaging.

This one-day event in London will provide an update on the latest developments in breast imaging, including breast MRI screening, economics of using technology like vacuum assisted excision biopsy systems and tomosynthesis, updates on LORIS trial and integrating AI in breast imaging.

This event will appeal to consultant radiologists, radiology registrars, interested clinicians, medical students who want a flavour of breast imaging, mammographers, radiographers with advanced interests, and industry representatives.

Educational aims:

- To enhance knowledge of the latest clinically relevant developments in breast imaging in one day
- To hear and interact with experts in the field about what to expect in the next one year
- To network with colleagues and peers' from across the country

08:30 **Registration and refreshments**

09:00 **Welcome and introduction**
