The BIR Gynaecology imaging update: Part 2

Venue: TBC

CPD: 5 CREDITS

This event is divided into two separate study days and will bring delegates right up to date with imaging techniques employed in gynaecology. Part 2 of this series will provide an update on both benign and oncological topics will be covered providing a comprehensive 'A to Z' of the major subjects encountered in everyday practice and will bring together a high calibre of speakers at the forefront of gynaecology imaging. This will be supplemented by talks from oncologists and surgeons providing cutting edge modern treatments.

Who should attend: Both district general and teaching hospital radiologists with an interest in gynaecology. Radiology trainees and radiographers regularly performing gynaecology MRI. Gynaecologists will also find this comprehensive imaging review helpful.

Educational aims:

- To be able to accurately stage the major gynaecology cancers
- To understand the role of functional imaging in prognostication and assessment of disease response
- To be able to characterise with confidence adnexal masses according to the latest ESUR guidelines
- To illustrate the role of MRI in benign disease including infection, endometriosis, placental and uterine disorders

09:00	Registration and refreshments	11:00	MRI of cervix cancer – detection and staging Dr Sue Freeman, Consultant Radiologist, Addenbrooke's Hospital NHS Foundation Trust
09:20	Welcome and introduction		
09:30	Endometriosis and chronic pelvic pain Dr Priya Narayanan, Consultant Radiologist, University College London Hospital	11:30	Functional MRI in cervix cancer – response assessment, residual and recurrence disease Dr Helen Addley, Consultant Radiologist, Addenbrooke's Hospital NHS Foundation Trust
10:00	Ultraradical cytoreductive procedures for primary and relapsed ovarian cancer Professor Christina Fotopoulou, Consultant Gynaecologic Oncologist, Imperial College Healthcare NHS Trust	12:00	Lunch
10:30	Refreshments		

This course provides 5 CPD credits in accordance with the CPD Scheme of the Royal College of Radiologists

13
SEPTEMBER
2019

- 13:00** **Advanced MRI techniques for adnexal mass**
Dr. Isabelle Thomassin-Naggara, Consultant Radiologist, Tenon Hospital AP-HP (France)
- 13:30** **ADNEx MR scoring system**
Dr. Isabelle Thomassin-Naggara, Consultant Radiologist, Tenon Hospital AP-HP (France)
- 14:00** **Refreshments**
- 14:30** **The role of multi-modality imaging (CT, MRI and PET) in treatment selection, planning and follow-up of patients with advanced ovarian cancer**
Professor Evis Sala, Consultant Radiologist, Cambridge University Hospitals NHS Foundation Trust
- 15:00** **Role of imaging in fertility-sparing treatment of gynaecologic malignancies**
Professor Evis Sala, Consultant Radiologist, Cambridge University Hospitals NHS Foundation Trust
- 15:30** **MR imaging of vulval cancer**
Dr Sidath Liyanage, Consultant Radiologist, Southend University Hospital NHS Foundation Trust
- 16:00** **Imaging features of uncommon gynecologic cancers**
Dr Aslam Sohaib, Consultant Radiologist, Royal Marsden Hospital NHS Foundation Trust
- 16:30** **IOTA update – rules, descriptors and risk models**
Susanne Johnson, Gynaecologist, University Hospital Southampton
- 15:00** **Close of event**

Programme Organiser

Dr Sidath Liyanage, Consultant Radiologist,
Southend University Hospital NHS
Foundation Trust
