LEADERSHIP IN IMAGING 2020

Venue: Royal Society of Medicine, London

CPD: 6 Credits

Join us 31 January 2020 for this exciting inaugural event organised by the new BIR Leadership and Management Special Interest Group.

This event is for all those interested and involved in leadership across the imaging community. As a truly collaborative organisation the BIR is in the unique position of bringing together a multiprofessional group to learn from engaging expert speakers and network in a friendly, informal environment.

Leadership in imaging 2020 is looking to the future – what will the imaging look like in 10 years? What impact will AI have? What equipment might we be using? Under such headings as ‘Future imaging’, ‘Future technology’ and ‘Future you’ there will be topics to suit all interests.

Programme Organiser

Dr Elizabeth Loney, Consultant Radiologist,
Calderdale and Huddersfield NHS Foundation Trust

With further contribution from the BIR Leadership
and Management Special Interest Group

Join us

Join the BIR today to benefit from
reduced delegate rates for our events.
