# BIR TRAUMA IMAGING SERIES

Virtual event

CPD: 3 CREDITS

This half-day event aims to feature some of the most common and uncommon traumatic injuries that can be found in daily practice. The speakers will lead discussion and review the imaging findings, highlighting learning points and potential pitfalls. It is aimed at radiology consultants, registrars and radiographers but will also be of interest to junior and senior clinicians in the emergency department.

Educational aims:

- To gain confidence in abilities to pick up subtle injuries
- To learn and reinforce a systematic approach to interpretation of major trauma imaging
- To get exposure to a wide variety of injuries in a simulated real-life setting

## Sign up

Create your free MyBIR portal to register onto the event and make sure to opt in for our educational emails. If you have already created a MyBIR portal, make sure you have your opt in preferences set to ensure you receive our educational emails and updates to keep informed about the latest information and free COVID-19 resources.

## Sponsor

A special thank you to Medica Group for sponsoring this event. MEDICA Group is the UK's largest teleradiology provider, delivering first class teleradiology reporting services to the NHS and independent healthcare providers through its growing global network of over 490 radiologists, radiographers and rheumatologists.
