PATIENT CENTRED CARE IN THE ERA OF ARTIFICIAL INTELLIGENCE AND TECHNOLOGICAL INNOVATION

VIRTUAL EVENT

CPD: 3 CREDITS

PATIENT CENTRED CARE IN THE ERA OF ARTIFICIAL INTELLIGENCE AND TECHNOLOGICAL INNOVATION

CPD: 3 credits

Welcome and introduction
Dr Ricardo Khine, Divisional Lead for Midwifery and Radiography, City, University of London
Dr Christina Malamateniou, Postgraduate Programme Director for Radiography, City, University of London

Introductory session

The ethics of artificial intelligence
Professor Maryann Hardy, Professor of Radiography and Imaging, University of Bradford

AI and the radiographer profession: The position of the EFRS
Associate Professor Jonathan McNulty, President, European Federation of Radiographer Societies

How will AI change radiography education
Dr Christina Malamateniou, Postgraduate Programme Director for Radiography, City, University of London

Industry session on AI and medical imaging practice

Continuation of a patient-centred, diagnostic service in the community during crisis and future opportunities
Dr Chrissy Zelenyanszki, Head of Screening and Prevention in Mammography, InHealth

AI-powered decision support enabling patient-centred care
Mr Joerg Aumueller, Vice President Global Marketing Digital Health, Siemens Healthineers

Smart scheduling: Change the paradigm of schedule workflows for better patient access
Mr John Wilkinson, Lead for Brilliant Radiology, GE Healthcare

Decision intelligence in cardiovascular imaging
Dr Jordan Engbers, Chief Executive Officer, Cohesic

Advancing AI in healthcare
Mr Gael Kuhn, Vice President of Product Development, Terarecon

Virtual MRI for effective, on-demand, continuous education
Mr Erik Jacobsson, Chief Executive Officer, Corsmed

COVID-19 and the cloud-based deployment of clinical tools
Dr Mark Fingerle, Management Associate, Brainlab

Ethos therapy
Mr Inbaraj Baskara Paulraj, UK Area Sales Manager, Varian

This course provides 3 CPD credits in accordance with the CPD Scheme of the Royal College of Radiologists

Research session

AI and radiography practice
Mrs Sofia Torre, Master's Student, City, University of London and Frimley Health NHS Foundation Trust

AI in fetal ultrasound
Ms Jackie Matthew, PhD Student, King's College London and City, University of London

AI and radiographer reporting
Dr Nick Woznitza, Clinical Academic Reporting Radiographer, Homerton University Hospital NHS Foundation Trust

Professional responses to the prospective use of AI in radiology
Dr Yaru Chen, Research Fellow, Centre for Healthcare Innovation Research, City, University of London

Medical imaging adjustments for patients with autism: A survey in Swiss medical imaging departments
Ms Sarah Carlier, Joint Master's Student, HESAV, Switzerland and City, University of London

Parents centred care in antenatal imaging
Mrs Emily Skelton, PhD Student, City, University of London and King's College London

Patient centred care in Europe
Dr Andrew England, Senior Lecturer in Radiography, Keel University and European Federation of Radiographer Societies

Keynote session: AI and patient centred care in radiography
Dr Rachel Harris, Professional and Education Manager and Research Lead and Dr Tracy O'Regan, Professional Officer Clinical Imaging and Research, The Society and College for Radiographers

City Radiography: Postgraduate opportunities and student awards
Dr Christina Malamateniou, Postgraduate Programme Director for Radiography, City, University of London

Close of event

LIVE SESSION

Live chat available throughout the day with City, University of London colleagues.

Live question and answer session with some of the excellent speakers between 14:00-15:00.
