# BIR/IDUG MOLECULAR RADIOTHERAPY DOSIMETRY

## Virtual event

CPD: 4 CREDITS (1 PER DAY)

Following three highly successful BIR/IDUG conferences in 2014, 2016 and 2018, this is an excellent opportunity to hear about the future of molecular radiotherapy dosimetry. Because of the ongoing uncertainty, this event will now be held virtually over four consecutive days during hour-long sessions. If you are unable to attend any of the live sessions, you will be able to access them on demand after the live sessions if you have registered for this event.

## Programme organiser

Dr Daniel McGowan, Principal Clinical Scientist, Oxford University Hospitals NHS Foundation Trust, IDUG Chair-Emeritus
