PAEDIATRIC RADIOLOGY FOR THE GENERAL RADIOLOGIST

Virtual event

CPD: 3 CREDITS

This one-day broad-based event will aim to support general radiologists with common problems within the field of paediatrics. Children come in all shapes and sizes with varied and occasionally complex needs. With a national shortage of paediatric radiologists, the task of diagnostic imaging often falls on the shoulders of a radiologist with a broad scope of practise. This study day is designed with this radiologist in mind, covering a wide range of topics.

Who should attend: General radiologists, paediatric sonographers as well as other healthcare professionals and those with an interest in paediatric radiology.

Educational aims:

- To understand the various features of general paediatric radiology
- To develop and gain an understanding of paediatric emergencies

13:30 **Welcome and introduction**
Dr Samantha Negus,
Paediatric Radiologist,
Surrey and Sussex Healthcare
NHS Trust

13:35 **Paediatric neuroradiology**
