# BIR TRAUMA AND EMERGENCY SERIES: PART 2

## Virtual event

CPD: 3 CREDITS

Following the successful Virtual Trauma event in July 2020, we are pleased to announce the 2nd part of the BIR Trauma Series. This half-day event aims to feature some of the most common and uncommon traumatic injuries that can be found in daily practice. The speakers will lead discussion and review the imaging findings, highlighting learning points and potential pitfalls. It is aimed at radiology consultants, registrars and radiographers but will also be of interest to junior and senior clinicians in the emergency department.

### Educational aims:

- To gain confidence in abilities to pick up subtle injuries
- To learn and reinforce a systematic approach to interpretation of major trauma imaging
- To get exposure to a wide variety of injuries in a simulated real-life setting

## Sign up

Create your free MyBIR portal to register onto the event and make sure to opt in for our educational emails. If you have already created a MyBIR portal, make sure you have your opt in preferences set to ensure you receive our educational emails and updates to keep informed about the latest information and free COVID-19 resources.

## Programme Organisers

Dr Marcela De La Hoz Polo, Consultant Radiologist, King's College Hospital NHS Foundation Trust

Dr Sridhar Redla, Consultant Radiologist, Princess Alexandra Hospital NHS Trust and President of The British Institute of Radiology

<b>13:30</b>	<b>Introduction and background</b> Dr Sridhar Redla, Consultant Radiologist, Princess Alexandra Hospital NHS Trust and President of The British Institute of Radiology
<b>13:35</b>	<b>Trauma in the elderly patient</b> Dr Elizabeth Dick, Consultant Radiologist, Imperial College NHS Healthcare Trust
<b>14:00</b>	<b>Q and A</b>
<b>14:05</b>	<b>Pregnancy and post-partum abdominal acute conditions</b> Dr Rebecca Wiles, Consultant Radiologist, Royal Liverpool and Broadgreen University Hospital NHS Trust
<b>14:35</b>	<b>Q and A</b>
<b>14:40</b>	<b>Paediatric radiology in the emergency department is no small matter</b> Dr John Adu, Consultant Paediatric Radiologist, King's College Hospital NHS Foundation Trust
<b>15:05</b>	<b>Q and A</b>
<b>15:10</b>	<b>Break</b>
<b>15:20</b>	<b>Emergency and trauma chest and cardiac</b> Professor Giles Roditi, Consultant Cardiovascular Radiologist, NHS Greater Glasgow & Clyde
<b>15:45</b>	<b>Q and A</b>

<b>15:50</b>	<b>Renal trauma</b> Dr Riad Alchanan, Consultant Interventional Radiologist, Kings College Hospital NHS Foundation Trust
<b>16:10</b>	<b>A picture is worth 1000 words: Trauma cases around the world</b> Dr Marcela De La Hoz Polo, Consultant Radiologist, King's College Hospital NHS Foundation Trust
<b>16:40</b>	<b>Q and A</b>
<b>16:45</b>	<b>Closing remarks</b>
<b>16:50</b>	<b>Close of event</b>

# Biographies

## **Dr Elizabeth Dick**

Dr Elizabeth Dick is a Consultant Radiologist and Honorary Senior Lecturer at Imperial College NHS Trust with expertise in Body MRI, Emergency, Trauma and MSK Radiology, subjects upon which she regularly publishes and lectures nationally and internationally. She completed a Fellowship in Body MRI; earning her doctoral degree at Imperial College, as well as an MSK Fellowship at Duke University, North Carolina.

At Imperial College Healthcare Trust she is Head of Trauma Radiology as well as Divisional Director of Medical Education. She has published several books and set up and taught on numerous UK postgraduate courses to medical and paramedical specialists. She is Past President of the British Society of Emergency Radiology and President of the European Society of Emergency Radiology.

## **Dr Rebecca Wiles**

Dr Rebecca Wiles is a consultant radiologist with specialist interests in gynaecological and gastrointestinal imaging. She is passionate about teaching radiology at undergraduate and postgraduate level. She has been invited to speak and chair sessions at conferences and teaching events in the UK and overseas including the Royal College of Radiologists Annual General Meeting, the UK Imaging and Oncology Congress, the British Society of Urogenital Radiology conference, the British Society of Gastrointestinal and Abdominal Radiology conference and the European Society of Gastrointestinal and Abdominal Radiology Congress. She is also now very familiar with virtual teaching having delivered many lectures and teaching sessions online including undergraduate and postgraduate lectures for the Royal College of Radiologists webinar series. In her spare time, she enjoys running, cooking and spending time with her family (which fortunately involves a lot of running around and cooking).

## **Dr John Adu**

Dr John Adu is a Consultant Radiologist with a subspecialty interest in paediatric imaging and paediatric interventional radiology, based King's College Hospital, London (major trauma centre).

Dr Adu underwent surgical training prior to commencing Radiology training at the Barts and the London scheme. Following this, he undertook two subspecialty fellowships in paediatric diagnostic radiology and paediatric interventional radiology at Great Ormond Street Hospital for Children.

He is an enthusiastic educator, and is involved in delivering undergraduate and post graduate radiology training locally and nationally.

## **Professor Giles Roditi**

Professor Giles Roditi is a Consultant Radiologist at Glasgow Royal Infirmary with clinical and research interests in many aspects of MRI and CTA, particularly cardiovascular imaging and stroke. He graduated in Medicine from Aberdeen University Medical School, Scotland. During his subsequent radiology training he undertook a Visiting Fellowship in cardiovascular MRI at Harvard Medical School in Boston prior to completing his radiology training in Aberdeen. He commenced his consultant career in Glasgow in 1997 where he is now an Honorary Professor and Research Imaging Champion.

Dr Roditi has been involved in promoting the use of MRI and CTA at all levels both in the UK and internationally. Dr. Roditi has served as faculty member at the annual meetings of many imaging societies including RSNA, ISMRM, SCMR, SCCT, SMRA, ECR, ESMRMB, CIRSE & ESCR plus in the UK at many annual meetings of both the Royal College of Radiologists and the British Institute of Radiology.

Dr Roditi is honoured to be the current President of the Society of Magnetic Resonance Angiography (<http://society4mra.org>) working to promote MRA as a clinical tool helping patients. Dr Roditi is the immediate past-President of the British Society of Cardiovascular Imaging ([www.bsci.org.uk](http://www.bsci.org.uk)) and is currently the Royal College of Radiologists Visiting Professor for Cardiovascular Imaging. He also has a strong interest in MRI contrast agents, being the Royal College of Radiologist's spokesperson on contrast media and as a member of the ESUR Contrast Media Safety Committee he helped draft the most recent European guidelines (<http://www.esur-cm.org/index.php/en/>).

Dr. Roditi is Level 3 accredited in both Cardiac CT and Cardiac MRI and a practising clinical radiologist using both CT, ultrasound and MRI for his day-to-day work as well as researching cutting edge techniques for cardiovascular imaging.

## **Dr Riad Alchanan**

Dr Riad Alchanan MD FRCR (CCT) is a consultant interventional radiologist at King's College Hospital, London. After completing his specialty training in general and interventional radiology at Hull Royal Infirmary he completed a fellowship in IR at King's College Hospital and was subsequently appointed as a consultant IR. His work involves a mixture of renovascular and hepatobiliary interventional radiology and is currently one of the first general IR consultants to have undertaken structured training in interventional neuroradiology as part of building up the infrastructure and the manpower for a comprehensive mechanical stroke thrombectomy service. His ambition is to help set out a training pathway for general interventional radiologists to ensure more patients can benefit from such a time-sensitive procedure. Dr Alchanan has multiple publications and a book chapter and presented at national and international meetings.

## **Dr Marcela De La Hoz Polo**

Dr Marcela De La Hoz Polo is a Musculoskeletal and Trauma Radiologist at King's College Hospital NHS Healthcare Trust, London.

After completing her radiology training in Spain Dr De La Hoz Polo undertook a Musculoskeletal fellowship at Imperial College NHS Healthcare Trust (2016-2017) in London where she also gained experience in emergency radiology.

She was appointed as Consultant Radiologist in King's College Hospital in 2017, one of the major trauma centres in London, where she further developed her interest in emergency radiology. In 2019 she became a certified European emergency radiologist (EDER examination) by the European Society of Emergency Radiology (ESER).

Dr De La Hoz Polo has been an invited lecturer at national and international conferences.
